Easy

EVERY DAY, more and more women are adopting Norforms as the easiest, most convenient and satisfactory form of feminine hygiene.

Norforms are easy-to-use antiseptic suppositories that melt at internal body temperature, and spread a protective, soothing, antiseptic film over delicate membranes and tissue. Norforms contain Parahydrecin—a powerful new antiseptic developed by The Norwich Pharmacal Company, makers of *Unguentine*. Parahydrecin kills germs, yet is harmless to tissue. There is no danger of an “over-dose” or “burn.”

Norforms require no apparatus for application. They are dainty and feminine, and actually deodorizing. Many fastidious women use them for this purpose alone. Buy a box of Norforms at your druggist's today. Or, send for Norform booklet, “The New Way”, by Dr. M. W. Stofer for further facts.

NORFORMS

KNOWN TO PHYSICIANS AS VAGIFORMS
