

A number of the articles in this list are of foreign make, and costs have advanced owing to the depreciation of the £ and the import duties. We have had to add about 15% to most of the prices in consequence; others are of British make, and in all such cases our original prices remain unaltered.

AMONGST the numerous brands with which the market is flooded, one stands out pre-eminent, and after thirty-five years still holds the field as first favourite. Its sales far exceed any other. We refer to the "EMPIRE" BRAND. The "EMPIRE" Brand is absolutely the most perfect article of its kind that can be produced. It is made of the finest grade of rubber; so fine and silky as to be almost imperceptible to the touch yet so strong that it can be stretched to four times its length without breaking.
