Lisbon teenager arrested for aborting

An eighteen year-old, who was seventeen at the time of the incident, has been charged with the crime of abortion and has been summoned to appear at the Lisbon Criminal Court on October 28th, after taking Misoprostol to induce spontaneous abortion.

According to *Jornal de Noticias*, the teenager's crime was uncovered after she was admitted to the emergency department of the Amadora-Sintra Hospital, where a nurse reported her to police for having allegedly taken Misoporstol.

The drug is said to be a very powerful stimulator of uterine contractions in late pregnancy and can cause foetal death and uterine rupture if used in high doses.

If proved guilty of purposely ingesting the medication with the objective of interrupting a pregnancy, the teenager could face a jail term.
